Fashion Technology Project

1 INTRODUCTION

1.1 Purpose of the Challenge.

Candidates will manipulate the block for a lined vest with a button closure to include required design elements (see below) and construct a vest.

1.2 Duration of the contest.

When planning the design details, candidates should consider the time frame of the competition. The entire vest must be completed in 7 hours.

2 DESCRIPTION OF PROJECT AND TASKS

2.1 Before the competition.

Candidates must prepare a colour fashion illustration of their proposed vest design. The fashion illustration must be 28cm x 43cm (11"x17"). Points will be deducted if the fashion illustration is not submitted prior to the orientation.

2.2 During the competition.

Competitors will be provided with a vest block. Competitors must NOT alter the following mandatory components of the vest block when creating the pattern, and the final construction must reflect the dimensions of the pattern. The cutting instructions must be respected for the following pieces:

- Armhole shape
- Shoulder length
- Neckline

The length of the vest must finish no longer than 28cm below the waistline. Projects that do not include all the mandatory requirements will be marked as incomplete and will not receive any points for the missing components.

2.3 Design components (level of difficulty and execution of design components will be considered when judging).

Fabric will be provided for exterior and lining. Competitors must use the right side of the fabric. Lining fabric must only be used for the interior of the garment.

At the beginning of Day 1 of the competition a pocket style and size will be drawn. The pocket will be either a single welt, double welt, or patch pocket with a width of 12cm or 15cm. Competitors must incorporate one pocket or two symmetrical pockets of this style into their design. Mandatory pockets must be placed on the exterior of the vest.

2.4 Block for vest includes 1.2 cm seam allowances

- vest front (2 pieces)
- vest back

3 MATERIAL
